Department of Water Resources (DWR)

- PPE Need - DWR currently looking for N95 masks for our essential workers in/near the fire areas (Quantity to be requested pending). Basic face coverings are insufficient due to the air quality.
- There are no major impacts to DWR facilities or issues affecting water delivery.
- DWR continues to monitor progress of the SCU fire moving towards two (2) DWR sites; the fire is currently seven (7) miles south of Del Valle pumping plant at Del Valle reservoir and about five (5) miles north of San Luis reservoir. The fire weather forecast of extreme winds and thunderstorms present elevates risk at multiple locations including loss of power to check stations on the California aqueduct due to de-energized or fire damaged to power grids, in addition to the elevated fire threats.
- DWR is working closely with CAL FIRE to include DWR critical infrastructure in their operations plans.
